Dear Ms. Heese:

I am writing in support of the proposed consent decree between the Department of Justice and Microsoft. I believe it represents a fair settlement for both sides.

The lawsuits have been dragging along for nearly four years now and have cost taxpayers \$35 million - enough is enough. Let's move forward with this agreement for the good of the country.

Please feel free to contact me for more information, but my position is clear - let Microsoft get back to work and stop wasting any more tax dollars in pursuit of these lawsuits.

Sincerely,

Tony Shyu
President
